GINA GRANDISON

CAD DRAFTER

Resourceful Technical Specialist with 8+ years of multidisciplinary CAD design experience, specializing in electrical drafting, engineering documentation, and process improvement. Proficient in AutoCAD and Revit for building design. Known for problem-solving, technical communication, and remote productivity.

WORK EXPERIENCE

TRC Companies Inc.

DISTRIBUTION DESIGNER I

- Created CAD and GIS models for power systems, ensuring accuracy, compliance, and digital tool integration.
- Verified documentation through audits and ECN revisions, collaborating with teams and vendors to support project needs.
- Supported field data and documentation workflows, applying technical standards to streamline design and improve efficiency.

United Illuminating

CAD DRAFTER

- Collaborated with engineering teams to produce, revise, and QA CAD drawings; supported ECNs, BoMs, and documentation.
- Performed root cause analysis to resolve design issues, ensure drafting compliance, and coordinate manufacturing support.
- Maintained version control and documentation accuracy, supporting seamless project updates and engineering workflow continuity.

Optimum formerly Cablevision

CSR / TECH SUPPORT

- Supported network issues for residential users, simplifying complex IT problems into clear solutions.
- Led user training to boost understanding and satisfaction through effective technical communication.
